

Introduction to 'Along the Lincolnshire Lymn' CD ROM

- This CD ROM is designed for use in conjunction with the 'Along the Lincolnshire Lymn' photo pack.
- The CD includes lesson plans, pupil resources and useful links to further information and resources.
- The format of the CD (in conjunction with the photo pack), allows for lessons to be undertaken solely in the classroom or offers scope for a half day or day in the field with follow up work back in the classroom.
- The lesson plans and pupil resources contained on this CD ROM are all ones that have been tried and successfully tested with KS2 pupils in Lincolnshire.
- The 'Sources of Resources' pages are accurate at time of production (Sept 2005) and are designed to save time and ones that we have found useful they are not however a definitive list.
- Please feel free to make as many copies of the Pupil Resources as is necessary for classroom use.

The CD ROM is broken down into the following sections:

1. Contents and Introduction
2. Introductory Activities
3. Fieldwork Activities
4. Photo pack Activities
5. Fieldwork Follow up Activities
