## 2012 seminars

Keeping you up to date with  
cross compliance and NVZ  
requirements and how to manage  
ELS and CFE options

are  
you  
ready  
for a  
greenfuture?

# green venues & timings

reserve your place at one of the greenfutures seminars

CLA, NFU, Environment Agency and Natural England are working together to help farming businesses comply with environmental regulation by organising a series of seminars across the region.

You are invited to attend a seminar in your area looking at:

- Cross compliance issues, including livestock record keeping, soil, hedge and ditch management, presented by Andrew Wells, agronomist.
- The Environment Agency's new Catchment Approach to regulation and what it means for farmers. The Agency will also be able to answer your questions on the NVZ action programme.
- Making the most of your ELS options.
- The Campaign for the Farmed Environment – where we are now and what more farmers can do.

BASIS and NRoSO points have been applied for.

The seminars will run across the region, please select your preferred choice.

## 1 February 2012, 11am
